

October 8th, 2026

- Prioritize: Formatting, adherence to page length, quickly go over titles
- Prioritize P0-P3 (P0, P1)
- Feedback
 - Define each requirement with a short sentence
 - Don't name every single library used for tech stack
 - Generalize this- we don't need all the information about each specific library used
 - Properly define P0, P1 - we may get feedback to add more P0 and P1
